FRIZZANTE

*Aromatized wine cocktail
with natural flavors, saturated
with innovative technology.*

Natur CO₂ technology

Natur CO₂ technology is a technology that captures the gas that occurs during grape fermentation. This is a purely natural product, which we reuse in saturation of our Frizzante and aromatized wine drinks. The primary goal of using Natur CO₂ is to protect the environment and reduce the carbon footprint.

FRIZZANTE

PEACH

white

This refreshing, gently sparkling drink has a distinctive aroma and rich taste of ripe peaches. Serve chilled in a wine glass with ice, preferably with a leaf of honeydew.
